Nintex + RPA
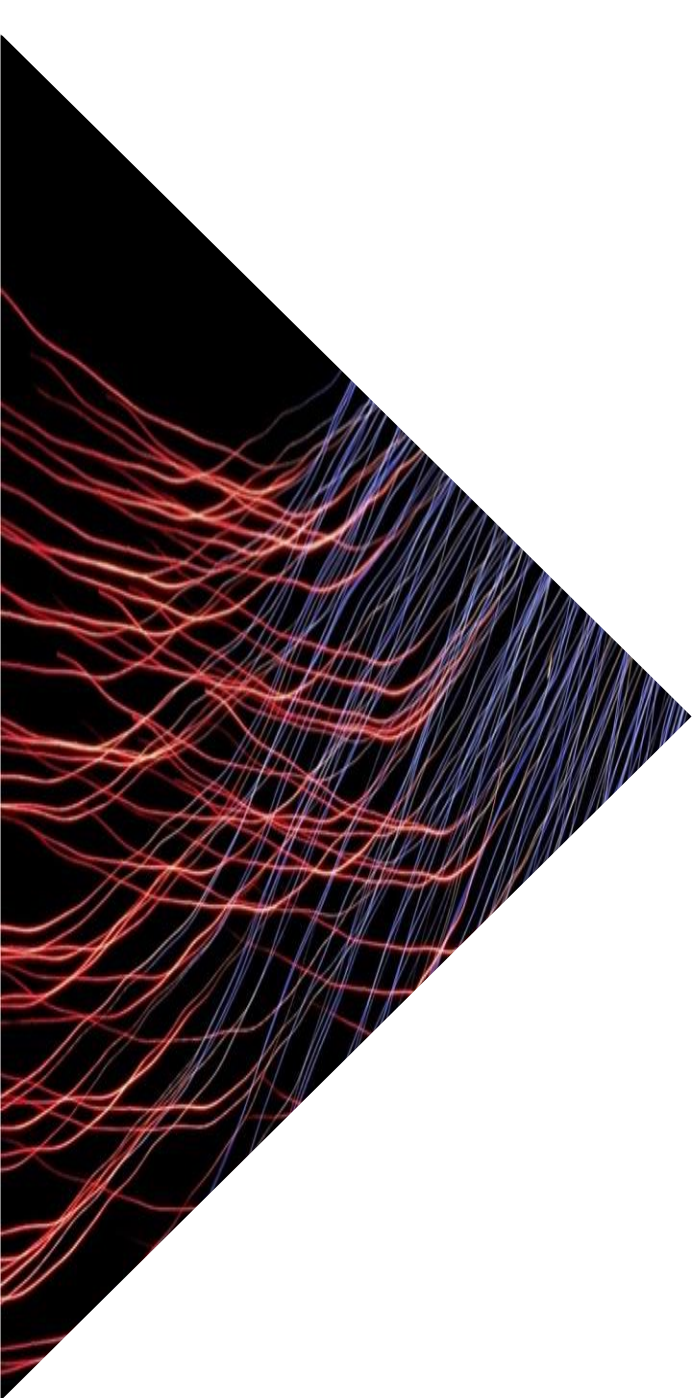

Automatisation Solutions by www.busicon.ch

Improve the way people work through process management and automation.
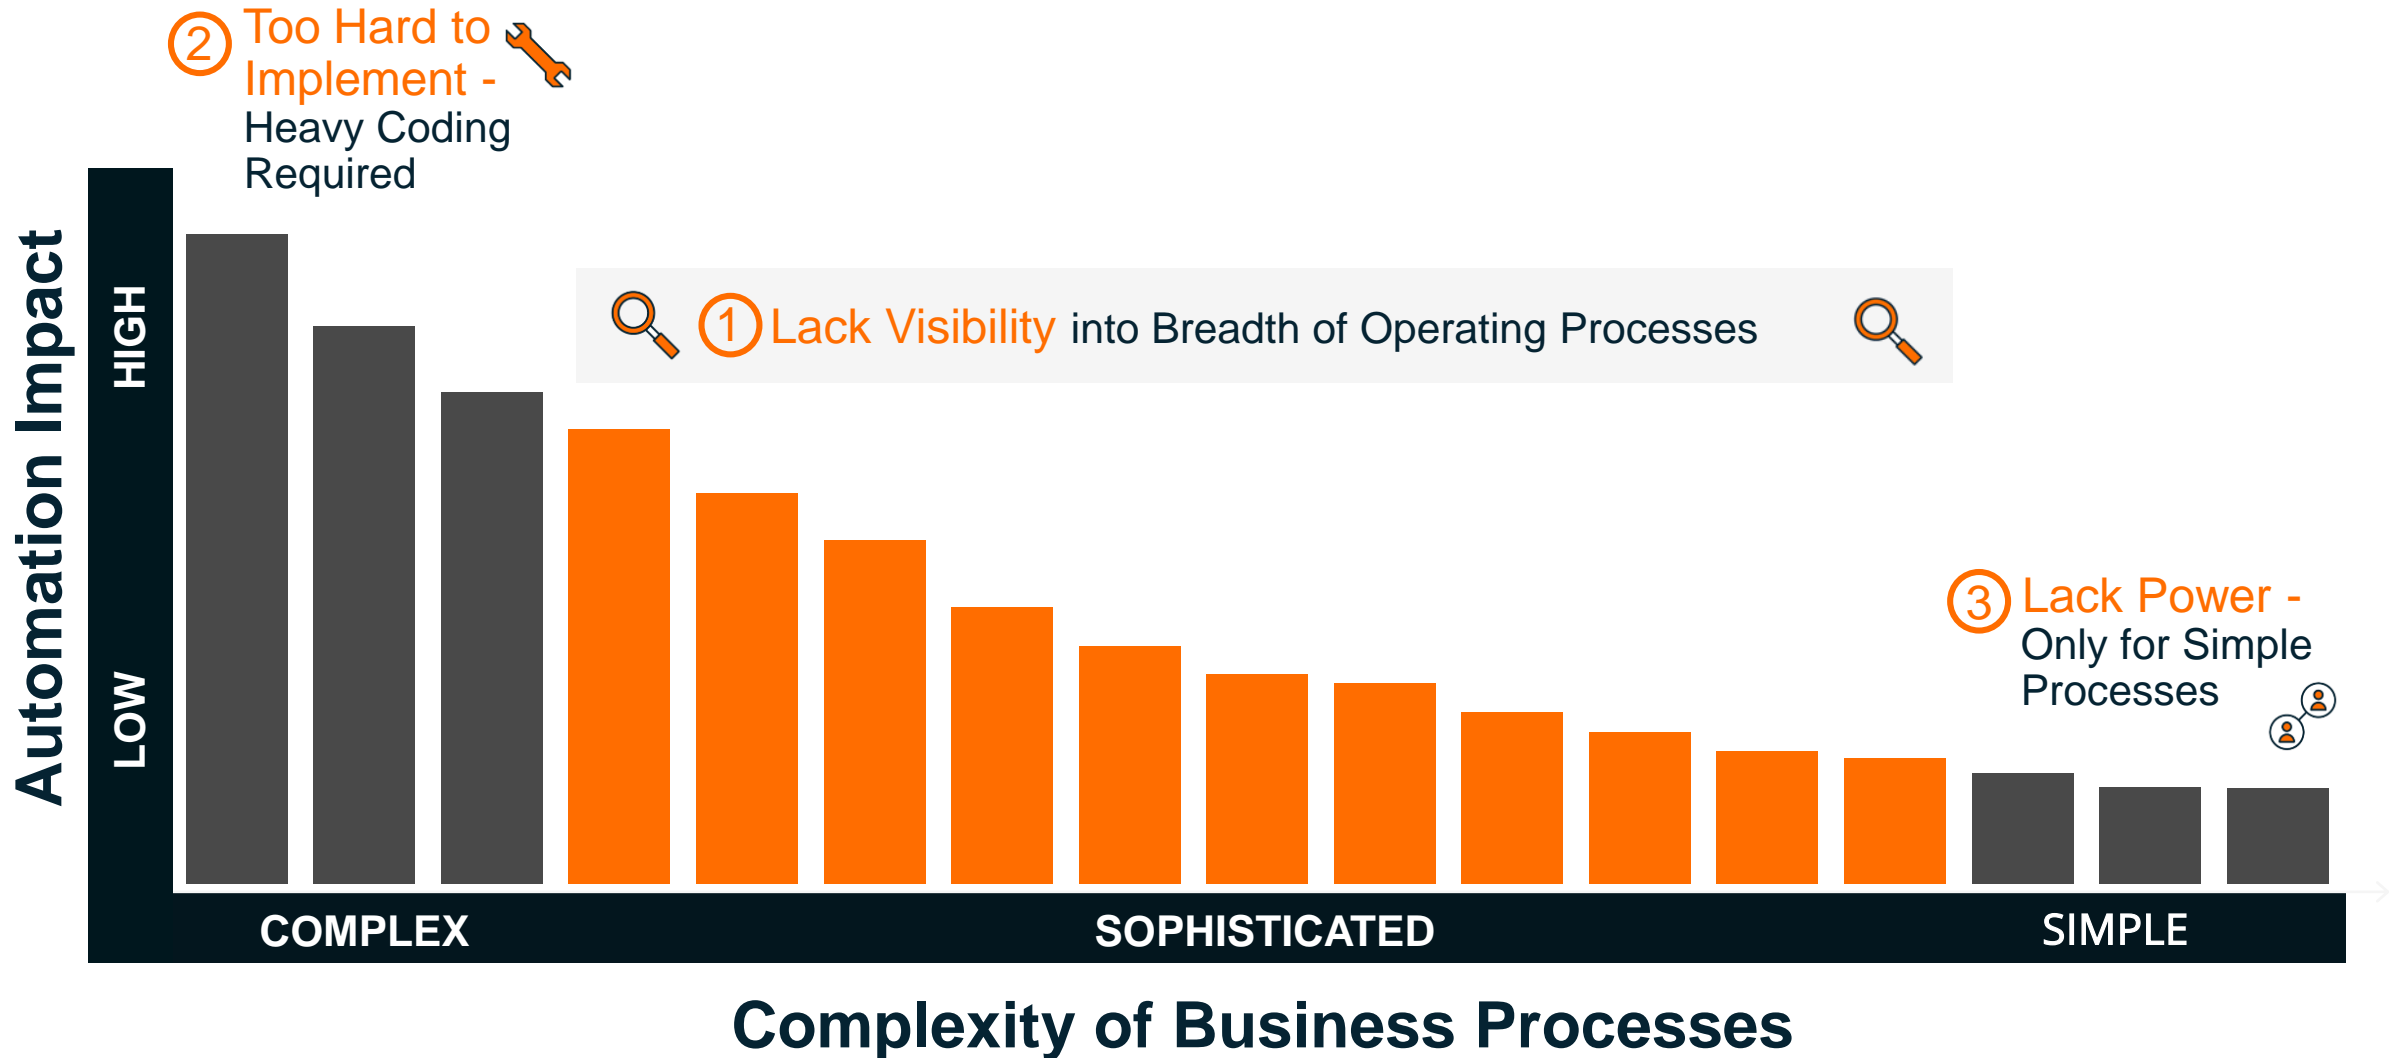

nintex

Companies Increased Pressure to Manage & Automate Processes

68% of all enterprise processes remain highly manual - **McKinsey & Company**

Benefits

Cost Reduction

- Identify and remove unnecessary steps
- Optimize resource allocation
- Standardization and repeatability

Auditability

- Identify late actions, non approvals
- Overlooked tasks and compliance violations
- Enhanced visibility and accountability

Productivity Enhancement

- Improved communication
- Eliminate repetitive and manual processes
- Empower employees

Best Practices

- Reduce human error
- Streamline process
- Paperwork is eliminated

nintex

Operate with Inefficient Processes Because…

Too Hard to Implement - Heavy Coding Required ②

① Lack Visibility into Breadth of Operating Processes

Lack Power - Only for Simple Processes ③

Automation Impact (HIGH / LOW)

COMPLEX — **SOPHISTICATED** — **SIMPLE**

Complexity of Business Processes

The Nintex Approach to Automation

|	Legacy Approach	nintex approach
Who builds them	Limited to developers and/or technical staff	Business analysts & process owners
Tools experience	Reliant on coding and scripting	Focused on a visual drag & drop UX
Time-to-value	Months - years	Days - weeks
Reach and benefits	Siloed, controlled users	Expansive, inclusive, viral
